## Customer Service Managers

A comprehensive list (made up from the central Incnet database) Customer Service Managers. Typical titles include; Customer Service Manager/Director, Service Quality Manager & Client Service Manager. A majority of companies on the file are turning over in excess of \$10 million and/or 50+ employees.

This list is meticulously compiled and over twenty industry codes and a growing selection of industry keywords allows the list user to efficiently zero in on their industry target markets.

Updating is maintained on a continual basis. All contacts on the file are tele researched every three months. This is supplemented by monitoring of media and other published information sourced and by dead mail.

The Inc Net database is a highly accurate list of over 230,000 key industry contacts, sourced from leading Australian and New Zealand organisations. IncNet focuses on companies with 20+ employees and / or \$10 million in annual revenue.

A strong commitment to accuracy and attention to detail makes the IncNet database one of the highest quality business lists available, for rental or purchase. It has been designed for, and used successfully by, organisations selling high value added products or services.
