Hospital & Health Services Yearbook

Senior and key personnel in the health care industry. A detailed guide of Directors of Nursing, Matrons, Chief Executives and Technicians listed in the annual Hospitals & Health Services Yearbook.

A cose database of 3,700 hospital and healthcare establishments including public and private hospitals, nursing homes and day care surgery centres. The file includes establishment name, executives by title, address, telephone, fax number, establishment size and type of services offered.

Nurses Database

This is an excellent list to target decision making nurses. As nurses are given more and more purchasing and prescription decision authority, this list will become essential to all supplying the healthcare industry.

Records are personalised including company name.
