Scientific American

Scientific American is an important forum for the presentation of new findings, new data, new insights and new advances in the evolving world of science, technology and the world economy.

The articles are filled with fresh and new ideas. They are written by experts and cover a variety of exciting topics such as natural science, medicine, world commerce and mechanical automation.

Subscribers are leaders in business, industry, government and professions, Reader demographic is; median age 45, \$82,000.00 average household income, 88% hold a university degree or more, 49% are professional/manAGERIAL, 51% of the file is male.

Magazine subscription is \$55.00 per year and is mailed monthly. Records are a mix of business and home address and although personalised, not all records have titles eg. Mr, Mrs.
