High Net Worth

Do you wish to identify consumers of high net worth?

This list comprises of affluent or high-net-worth individuals which have been previously difficult to identify and harder to target. This list contains accurate, compliant contact data and powerful segmentation information which enables the targeting of prospects with high incomes, high property values, high capital growth of their residence and high levels of disposable income.

Consumer Prospects Plus offers both a high volume of available consumer prospects and a wide range of sophisticated segmentation variables to facilitate highly targeted, effective marketing campaigns.
